

**If they can make a dry
food I like, why couldn't
I do it for reptiles?**

*Gordon Vadis
Cricketeer*

Introducing the first dry food that reptiles will actually eat. Reptile-Life™ products combine unique tastes and textures reptiles crave naturally with the vitamins, minerals, and advanced micronutrients they need. With eighteen varieties of food, supplements, and vegetable boosters, there's one for every hungry mouth. Discover more at ebugco.com or call us at 1-888-777-2248.
