

**What drive thru windows  
have done for burgers, I've done  
for crickets and mealworms.**

*Gordon Vadis  
Cricketeer*

It's all about convenience. Our Live Bugs! Power Panel is an exclusive display system that uses three shelves to allow you to mix and match feeder insects. It's convenient for consumers, easier for your employees and healthier than refrigeration. Find out more at [ebugco.com](http://ebugco.com) or to find the right product mix for you store call us at 1-800-451-2576.
